

Curriculum Vitae of the machine Reference number: X 1939

KODAK TRENDSETTER 800 QUANTUM CTP System and Plate Processor

Production Year: 2003
Max. Size/Width: 1143x838 mm (45.0"x33.0")

Availability: immediately

Work Experiences: used for exposure of offset printing plates (positive, thermal, 830 nm), used for various sizes up to B1 size

Sale Reason: surplus equipment sale

More Details: including processor, thermal aluminium offset plates process with IR laser - external drum technology, manual feeding into the processor, integration to the Brisque™ pre-press system. max. 2400 dpi and 450 lpi, stochastic raster, max. speed 22 plates per hour.

Condition of the Machine: functional, complete not in daily production but can be seen running at your request

Refurbishments: 2008 - new laser head

Repairs: regular service

The Last Operator's Opinion: worked without any fault and problems

Disclaimer: The Condition of the Machine assessment presented in this CV was either obtained from the last machine operator or is based on an inspection performed by our employee, just to provide you with as much information as possible. For more certainty we recommend your own check or an assessment of an independent mechanic. We cannot provide you with any machine guarantee.
